

Gas Absorption Refrigerators

18 cu.ft.

PolarMax™ 2118

Replaces Norcold® 2117
Cut-out: 69"H x 36"W x 24"D

The largest-ever made-for-RV refrigerator!

Designed for the rigors of the road. Quiet operation uses silent gas absorption process with no moving parts. Cabinet-depth design for a clean and comfortable fit in RV kitchens. Eye-level exterior LCD Control Panel is easy to see and operate. Covered crispers with pop-up lids protect food from spills, allow varied humidity levels and each can be accessed with a door open only 90°! Full-width food and freezer compartments for MAXimum storage. Adjustable powder-coated wire shelves with front lip on refrigerator shelves. For safety, the positive-locking, recessed door handles are clean and stylish, open easily and remain closed during travel.
