SECOND VEHICLE KITS

14-6860 98800 9700 2nd towed vehicle kit

If you switch the 9700 between two vehicles, install this break away system, and monitor and brake light signal wiring, in the second vehicle.

14-6861 98400 Even Brake 2nd towed vehicle kit

If you switch Even Brake between two vehicles, install this break away system, ICX transmitter and Brake-Lite Relay in the second vehicle.

96-3466 98700 InvisiBrake new towed vehicle kit.....

You can transfer the InvisiBrake controller and air cylinder to a new vehicle with this kit. *Note: InvisiBrake is not designed to be switched between two vehicles.*

14-6862 98850 InvisiBrake/9700 2nd motorhome kit ..

If you change motorhomes, install these components in the motorhome.

ALL ROADMASTER BRAKING SYSTEM ACCESSORIES

BREAK AWAY CABLE

A self-supporting, coiled design provides lift off the road surface while still allowing plenty of slack for cornering. Extends to eight feet and conveniently retracts for storage. Ideal for virtually any break away system.

- 14-6437 8603 Break away cable**

BREAK AWAY SWITCH, PIN AND RING

Our replacement break away switch has a sealed, corrosion-resistant ABS housing and metal contact points. The break away pin is attached to a plated steel ring and comes with a water-resistant O-ring seal.

- 14-6438 6508 Break away switch, pin & ring**...
- 14-6439 200200-20 Break away pin & ring only**

INVISIBRAKE PULLEY MOUNTING BRACKET

The pulley (not included) can be rotated in three different ways, as shown above. Use any of the eight mounting holes, based on the application.

If no flat surface to mount the InvisiBrake pulley due to curves, recesses or obstructions in the firewall, use this optional bracket (pulley not included).

- 96-2316 8700-PBC InvisiBrake bracket**.....

WHY A BRAKE-LITE RELAY?

It stops the brake lights from functioning until the vehicle is started. This prevents the towed vehicle's brake signal from overriding the RV's turn signal.

You only need a Brake-Lite Relay if you're installing a dinghy braking system that moves the brake pedal.

88400
Brake-Lite Relay

Exceptions –

- If the brake lights do not illuminate, when you step on the brakes with the engine off.
- If you're using magnetic tow lights or a bulb and socket wiring kit.
- If the motorhome and towed vehicle are wired for separate brake and turn signals.

- 14-6093 88400 Brake-Lite Relay**
