

LIGHTING

**Progressive
Dynamics, Inc.**

Since 1964, Progressive Dynamics, Inc. has been the source of bright ideas for the RV Industry. We design and produce a variety of different 12V DC lighting products to light up and make your RV home shine. We have a series of ceiling lights in single or double models that have a traditional feel, yet an elegant style. Heat-resistant, high impact polymer frames and lenses minimize accidental damage. Versatile convenience lights are perfect for illuminating closets, cabinets or under the sink, while our reading lights are great for reading or work requiring excellent illumination. All of our 12V DC lighting products great solutions for RV applications and come prewired and color-coded for quick and easy installation.
